SAURAV KUMAR

AEM Developer | AEM Dam & AEM Asset (AEMaaCS**)**

Mobile: +91 7488024088 | Email: sauravraj32424@gmail.com | LinkedIn: linkedin.com/in/saurav-kumar-716108142

PROFESSIONAL SUMMARY

Experienced AEM Developer with 5+ years of expertise across Adobe Experience Manager as a Cloud Service (AEMaaCS) and AEM 6.5 (On-Premise), specializing in AEM Sites, AEM Assets (DAM), Components, Editable Templates, Custom Workflows, Oak Indexing, and Sling Servlets. Proven hands-on experience in cloud-native DAM asset processing, JCR query performance optimization, content migration, and workflow automation. Strong problem-solving abilities with a track record of delivering scalable, high-performance digital experiences for global enterprises.

TECHNICAL SKILLS

AEM Platforms: AEM as a Cloud Service (AEMaaCS – 1+ Year), AEM 6.5 On-Premise (4+ Years), AEM Sites, AEM Assets (DAM), Adobe Cloud Manager

AEM & Backend Stack: Java, OSGi Services & Components, Apache Sling, Sling Models, Sling Servlets, Custom Workflows, Oak Indexing (Lucene & Property), Sightly (HTL), JCR/Oak

Front-End Technologies: HTML5, CSS3, JavaScript

Build, Testing & Tools: Git & GitHub, Maven, JUnit, Dispatcher Configuration, Jira, ServiceNow

Analytics & Marketing Tools: Google Analytics 4 (GA4), Google Tag Manager (GTM), Google Search Console (GSC), Looker Studio (Data Studio)

WORK EXPERIENCE

AEM Developer | Capgemini **[AEM as a Cloud Service]** *(5th Jan 2026 – Present)*

- Specialize in AEM Assets (DAM) development and architecture on AEM as a Cloud Service (AEMaaCS) to streamline enterprise digital asset management operations.
- Design, develop, and customize AEM Workflows (custom process steps, workflow launchers, and post-processing workflows) to automate asset ingestion, metadata extraction, rendition generation, and approval lifecycles.
- Create and optimize custom Oak Indexes (Lucene and Property index definitions) compliant with AEMaaCS deployment standards to tune JCR queries, significantly accelerating DAM asset search and reducing repository traversal bottlenecks.
- Develop scalable backend integrations using Sling Servlets (ResourceType and Path-based), OSGi Services, Sling Models, Event Handlers, and Schedulers to power complex asset operations and RESTful APIs.
- Manage cloud deployments via Adobe Cloud Manager CI/CD pipelines, resolving code quality gate issues and maintaining comprehensive technical documentation.

AEM Developer | Aventior Digital **[AEMaaCS & AEM 6.5 On-Premise]** *(10th March 2025 – Jan 2026)*

- Developed and delivered end-to-end solutions across AEM 6.5 (On-Premise) and AEM as a Cloud Service (AEMaaCS) environments based on business requirements and technical specifications.
- Designed, developed, and maintained reusable AEM components, editable templates, custom workflows, and backend services using Java, OSGi, Apache Sling, Sling Models, and Sightly (HTL).
- Collaborated closely with UX/UI designers, content authors, and business stakeholders to ensure a seamless authoring experience and high-performance content delivery.
- Created and maintained comprehensive technical documentation, including low-level design documents, Cloud/On-Prem deployment instructions, and QA test plans.

Software Engineer | Wipro Limited **[AEM 6.5 On-Premise]** *(27th Sept 2021 – 7th Feb 2025)*

- Managed both technical development and team coordination on AEM 6.5 On-Premise environments, ensuring timely delivery of AEM Sites features and platform enhancements.
- Designed and developed custom AEM components and editable templates to support diverse business and multi-site authoring requirements.
- Collaborated with content authoring teams to build and manage multi-country localized site pages for global enterprise clients (Castrol and BP), ensuring brand consistency and regional compliance.
- Contributed to critical site launch activities, including large-scale content migration, performance optimization, QA validation, and go-live support.
- Implemented and configured Google Analytics (GA4), Google Tag Manager (GTM), Google Search Console (GSC), and Looker Studio (Data Studio) to enable granular data tracking and performance analysis.

EDUCATIONAL BACKGROUND

Bachelor of Technology (B.Tech) in Electronics and Communication Engineering | Asansol Engineering College (Aug 2017 – Aug 2021)

Higher Secondary Education – Science | Sri Chaitanya Vidya Niketan (June 2015 – March 2017)

ACHIEVEMENTS & LANGUAGES

Achievements: Victory League Award | Habit Flagbearer – Being Responsive

Languages: English (Fluent), Hindi (Fluent)
